## Summerland Set in Stone

Located in a former nursery, **Méditerranée Antiques**, near Santa Barbara, California, carries hand-carved reproductions of antique stone fountains (below right). "Often you see the same fountain everywhere," says

**Tim Corrigan**. "These are unusual." Garden statuary, antique Turkish terra-cotta jars (bottom), reproductions of antique rustic French and Italian furniture and a line of hand-cast iron hardware round out the inventory.

## Retro Redux in Chicago

The **Furniture Shop** reupholsters, refinishes and refurbishes 20th-century furniture. "They also have a fabulous collection of original 1950s pieces for purchase," **Linda Searl** (top, with co-owner Mark Roe) says of the Chicago workshop. Reworked classics include the 1946 DCW by Charles and Ray Eames (above left) and Mies van der Rohe's 1926 MR side chair (above right). To the trade.
